

PROFILE GRINDER GP 210 +S

PRECISION GRINDING MADE EASY

The innovative lightweight design of the GP 210 +S profile grinder for grinding the head of the rail. The powerful motor enables quiet and low-vibration operation with the highest material removal rates. The tool has been designed to provide clear line of sight of the grinding stone. Thanks to its independent operation without the need for a hydraulic power unit, the GP 210 +S can be used flexibly anytime and anywhere – for maximum mobility and efficiency on the job site.

POWERED BY
EGO™

TECHNICAL DATA

SPECIFICATIONS

Dimensions (L x W x H)	50.2 x 18 x 38.3 (MIN) – 39.2 (MAX) in
Weight	88.2 lb (without battery)
Motor	Brushless DC Motor, battery-driven, powered by EGO
Power	4.5 hp at 3 400 rpm
Battery	24 Ah / 56 V (= 2 x 12 Ah batteries)

BENEFITS

- Battery-driven allowing increased productivity for Thermit® and flashbutt rail welding operations
- Ideal for use in tunnels, confined spaces or locations with emissions requirements
- Independent of external hydraulic units
- Simple to repair with interchangeable components and short video tutorials for certain repairs
- Clear line of sight of the grinding stone
- LED display with status indicators for battery charge level, motor speed, operating hours
- Handle to adjust grinding stone height
- Height-adjustable Halo handle to allow easy maneuverability during operation
- Stone wrench included with purchase
- Up to 60 minutes of runtime per battery charge with 12 Ah EGO batteries
- Commercially available lithium-ion battery
- Battery charging time as fast as 75 minutes for 12 Ah EGO battery with EGO 700 W charger
- Multiple battery charging options available, including mobile charging

CONTENTS

- GP 210 +S
- 29-3400-00K – stone removal wrench

ACCESSORIES

- Grinding stone, 6 x 3 x 5/8 – 11 in
- 12 Ah EGO lithium-ion battery
- Different battery charging options available
